

# MINOR PROGRAMS

A minor normally consists of 17-21 credits, and is recorded on student transcripts. A student may not major and minor in the same discipline. A minor contains at least 9 credits not duplicated in the student's major or in any other minor(s) that the student is pursuing. A student may duplicate hours between the minor and the general education core, unless otherwise stated in the specific minor.

## ART

It is strongly recommended that students who wish to concentrate on a particular medium select the design course related to that medium; for example, a person concentrating in sculpture should take 3-D Design.

## SPECIALIZED LEARNING OPPORTUNITIES

Many academic disciplines across the college offer students the option of pursuing specialized learning opportunities through special topics seminars, independent studies, internships, and practica. See descriptions below. For more information about provisions governing such options in particular programs, consult the appropriate division chair or major coordinator.

### Special Topics Seminars 290/390/490

**Variable Credit**

Special Topics Seminars are varying-emphasis courses and are intended to enhance student learning by providing academic opportunities beyond what the College offers in its formally approved curriculum. These courses encourage both in-depth reading of and reaction to topical issues. Individual research and reports, team projects, and class discussion facilitate creativity, inquiry, and a variety of perspectives. Many academic disciplines offer these seminars, and a student may take more than one special topic seminar if the topic is not duplicated.

### Academic Practicum/Internship 269/369/469

**Variable Credit**

Designing and conducting a practicum or internship enables a student to receive academic credit for hands-on, non-classroom work in any faculty-approved area of study that falls within the general boundaries of the Brevard College curriculum. A practicum involves the student in completion of a specific project or set of projects as assigned by the faculty sponsor. An internship involves 40-50 hours of supervised on-site hours per hour of academic credit awarded. Other activities pertinent to practica or internships include
